Welcome to ECPAT

ECPAT is an expanding network of local civil society organisations and coalitions with one common goal – to end the sexual exploitation of children around the world.

ECPAT conducts cutting-edge research to build the collective understanding of what it will take to end the sexual exploitation of children. Together with our members and partners, we coordinate evidence-based advocacy at all levels to strengthen national justice and protection systems and increase investment in the fight against sexual exploitation of children.

At the heart of all our work are the voices of children, reflected across our research agenda, programmes and campaigns.
