

We are the leading experts on victims of human trafficking worldwide.

For more than 15 years, we have been advocating on behalf of those at risk of exploitation. The Tronie Foundation is a survivor-led global organization, now bringing together a new team of partners for supply chain compliance and sustainability. Through our United Nations General Assembly speeches, we have advised more than 150 countries on the solutions to protecting children around the world. Through our Global Survivor Network, we have worked with survivors in 5 continents and in approximately 20 countries.
